AURAMEX RESOURCE CORP.

Notes to the Condensed Consolidated Interim Financial Statements
June 30, 2016 and 2015 (Unaudited – Expressed in Canadian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Auramex Resource Corp. (“Auramex” or “the Company”) is a Canadian company incorporated in the province of British Columbia and trades on the TSX Venture Exchange. The Company is currently engaged in the acquisition and exploration of mineral properties in Canada.

The head office, registered and records office and principal address of the Company is located at 750 Grand Boulevard, North Vancouver, British Columbia, Canada, V7L 3W4.

The Company is in the process of exploring its mineral properties and has not yet determined whether the reserves of its properties are economically recoverable. The recoverability of the amounts shown for mineral properties are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production. The carrying value of the Company’s mineral properties does not reflect current or future values.

These condensed consolidated interim financial statements have been prepared assuming the Company will continue on a going concern basis. The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to develop profitable operations and to continue to raise adequate financing. There can be no assurance that the Company will be able to continue to raise funds in which case the Company may be unable to meet its obligations. Should the Company be unable to realize on its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the balance sheets. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. The Company must raise cash in order to meet its obligations.

2. BASIS OF PREPARATION AND CONSOLIDATION

These condensed consolidated interim financial statements, including comparative balances, have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and they should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2015 and the notes to the financial statements.

These condensed consolidated interim financial statements have been prepared on an historical cost basis. These condensed consolidated interim financial statements are presented in Canadian dollars, the Company’s functional currency. In addition, these financial statements have been prepared using the accrual basis of accounting.

The significant accounting policies used in the preparation of these condensed consolidated interim financial statements are consistent with those used in the preparation of the Company’s annual consolidated financial statements.

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Exploración Auramex S.A. de C.V. (incorporated in Mexico). All significant intercompany transactions and balances have been eliminated upon consolidation.

All financial assets except those measured at fair value through profit or loss are subject to review for impairment at least at each reporting date.

AURAMEX RESOURCE CORP.

Notes to the Condensed Consolidated Interim Financial Statements
June 30, 2016 and 2015 (Unaudited – Expressed in Canadian Dollars)

2. BASIS OF PREPARATION AND CONSOLIDATION (continued)

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in the profit or loss for the period.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

3. PROPERTY AND EQUIPMENT

Equipment is carried at cost, less accumulated depreciation and accumulated impairment losses. Depreciation is recognized using the declining balance method at the following annual rates. Depreciation is calculated annually.

	Computer and Office Equipment	Computer Software	Exploration Equipment	Furniture and Fixtures	TOTAL
Cost					
Balance at December 31, 2015 and at June 30, 2016	\$ 7,985	\$ 1,075	\$ 5,143	\$ 2,025	\$ 16,228

Net Book Value					
At December 31, 2015 and at June 30, 2016	\$ 1,178	\$ -	\$ 154	\$ 664	\$ 1,996

Property and equipment that is withdrawn from use, or has no reasonable prospect of being recovered through use or sale, is regularly identified and written off.

4. RECLAMATION DEPOSITS

Reclamation deposits are the funds required by the Mines Department to be held on deposit against future reclamation and remediation of environmental disturbance as a result of mining exploration and development activity. After reclamation and remediation, the funds can be recovered.

The following table shows the reclamation deposits by property:

	Brandywine Property	Stewart Properties	Total

5. EXPLORATION AND EVALUATION ASSETS (continued)

The Company follows the method of accounting for its interests in mineral properties whereby all costs related to acquisition, exploration and development are capitalized by area of interest. These expenditures are carried forward where rights to tenure of the areas of interest are current, and it is expected the expenditure will be recovered through successful development and exploitation of the area of interest or alternatively by its sale, and/or the activities are continuing in the area of interest but have not yet reached a stage of development which permits reasonable assessments of existence or otherwise of economically recoverable reserves. Expenditures which no longer satisfy the above criteria are written off. The carrying value of each of its interests in mineral properties is reviewed on a regular basis. Title to mineral property interests involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral claims.

The Company has mineral property interests in Canada and Mexico. Mexican property interests are no longer carried as exploration and evaluation assets.

Stewart Properties, British Columbia

The Stewart Properties are located in the Skeena Mining Division, British Columbia. The properties have been acquired under various option agreements, purchase agreements and by staking, for total cash of \$47,583 and the issuance of 517,500 common shares in the Company. All option agreements have been exercised.

Certain claims are subject to a net smelter royalty ranging from 1% - 2%.

6. CAPITAL STOCK

a) Authorized

Unlimited number of common shares without par value.

During the six months ended June 30, 2016, the Company had the following share transactions:

On February 27, 2016, the Company completed a private placement issuing 2,500,000 units at a price of \$0.010 per unit for gross proceeds of \$25,000. Each unit is comprised of one common share and one half flow-through share purchase warrant. Each full share purchase warrant is exercisable into one flow-through common share of the Company at a price of \$0.05 until July 5, 2016.

Share issuance costs in connection with the issuance were \$112.

During the year ended December 31, 2015, the Company had the following share transactions:

On March 27, 2015, the Company completed a private placement issuing 2,666,666 units at a price of \$0.015 per unit for gross proceeds of \$40,000. Each unit is comprised of one common share and one share purchase warrant. Each share purchase warrant is exercisable into one common share of the Company at a price of \$0.05 until March 27, 2016 and at a price of \$0.10 until March 27, 2017.

b) Share Purchase Warrants

At June 30, 2016, there are 10,650,000 share purchase warrants outstanding:

6. CAPITAL STOCK (continued)

c) Stock Options

The Company's stock option plan provides for the grant of incentive stock options for up to 3,266,000 common shares to employees, consultants, officers and directors of the Company. Options are granted for a term of up to ten years from the date granted. Stock options granted to directors, officers, employees and consultants for other than investor relations activities generally vest immediately upon grant.

During the six months ended June 30, 2016, 300,000 stock options expired.

The following table summarizes information about the stock options outstanding at June 30, 2016:

Exercise price	Number outstanding and exercisable	Weighted average Remaining years	Expiry date
\$ 0.10	375,000	3.46	December 16, 2019
0.05	1,200,000	8.24	September 24, 2024
	<u>1,575,000</u>		

7. SHAREHOLDER LOANS

On August 2, 2011, certain related parties subscribed to a private placement that was not completed. In that regard, the deposits on shares of \$50,000 have been treated as shareholders' loans. These loans are still outstanding and will only be repaid from future financings or shares for debt settlement.

8. RELATED PARTY TRANSACTIONS

Key Management Personnel

Key management consist of executive members of the Company's Board of Directors and corporate officers. The Company has no post-employment benefits or other long-term benefits.

	<u>\$ 630</u>	<u>\$ 1,380</u>

As of June 30, 2016, \$2,010 is included in accounts payable.

9. CAPITAL DISCLOSURES

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of resource properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

AURAMEX RESOURCE CORP.

Notes to the Condensed Consolidated Interim Financial Statements
June 30, 2016 and 2015 (Unaudited – Expressed in Canadian Dollars)

9. CAPITAL DISCLOSURES (continued)

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the six months ended June 30, 2016. The Company is not subject to externally imposed capital requirements.

Taxes recoverable and prepaid expenses

	June 30, 2016		December 31, 2015	
GST receivable	\$	3,978	\$	3,774
Prepaid expenses and advances		2,871		855
	\$	6,849	\$	4,629

10. FINANCIAL INSTRUMENTS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with counterparty's inability to fulfill its payment obligations. The Company believes it has no significant credit risk as interest receivable is from deposits with Canadian chartered banks and taxes receivable from the Government of Canada.

Liquidity risk

The Company's approach to managing liquidity risk is to attempt to ensure that it will have sufficient liquidity to meet liabilities when due.

Cash and current liabilities

	June 30, 2016		December 31, 2015	
Cash	\$	4,338	\$	25,465
Current liabilities	\$	(630,139)	\$	(593,844)

Included in the current liabilities of \$630,139 are shareholder loans in the amount of \$50,000 and consulting fees of \$169,425 owing to the CEO and to the CFO. Also included in the current liabilities are consulting fees of \$133,345 owing to the VP exploration. These amounts will be repaid only from future financings or shares for debt, not from current assets.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

a) Interest rate risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions.

The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. As of June 30, 2016, the Company did not hold any investment-grade short-term deposit certificates.

b) Foreign currency risk

Foreign currency risk is the risk that variation in exchange rates between the Mexican peso, the US dollar and the Canadian dollar will affect the Company's operating and financial results. The Company does not have material balances in foreign currencies.

Notes to the Condensed Consolidated Interim Financial Statements
June 30, 2016 and 2015 (Unaudited – Expressed in Canadian Dollars)

10. FINANCIAL INSTRUMENTS (continued)

b) Foreign currency risk (continued)

Sensitivity analysis

The Company has cash, receivables, taxes recoverable and accounts payable and accrued liabilities denominated in Mexican pesos. A 10% fluctuation in the Mexican peso and the US dollar against the Canadian dollar would affect net income for the six months by approximately \$20,200.

c) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

10. SEGMENT INFORMATION

The Company has one reportable operating segment, being the acquisition, exploration and evaluation of exploration and evaluation assets.
